A special meeting of the organized clubs has been cailed for March 29 when efforts will be made to formulate plans to help the clubs which suffered heavily during the past season owing to the greatly reduced attendances, and also to make important changes in the soccer rules.

Another important question which will be settled at this meeting is the salaries to be paid players in the future, and it is thought in official circles that under the altered conditions a sum much less than \$20 a week will be a reasonable salary for all soccer players.

JEWETT CITY WON. Outclassed Stonington Basketball Team-Score 53 to 29.

(Special to The Bulletin.)

Jewett City, March 4.—The Stonington basketball team was defeated here

faulty in several respects. In the first place it includes four poor cities, three of whom during the past two years have conclusively proven that they will not support class B baseball. These three are Meriden, Waterbury and New Britain. The fourth poor selection is Norwich. Conditions in in this city are peculiar, inasmuch as the population is considerably larger than that of New London, though interest in baseball here is very slight. Norwich, however, has not had league ball in recent years, and should it be put into a league with New London the inter-city rivalry might carry it along.

On the whole, however, while the league as proposed cuts the mileage considerably, it does not offer as good a field as the present Eastern association. If his other leagues are based on the same plan as the one he puts forth for this section, then there is considerable doubt if they would ever prove a success. The idea is correct in theory, but in practice it might not prove to be all that is desired.

Jewett City, March 4—The visitors displayed poor sportsmanship throughout the game, using unaecessary roughness, and were a disappointment to the fans. The Benjamin brothers did the heavy work in the scoring for the visitors, while Edgar of Stonington played a star game. The summary and lineup follows:

Lawres redistricts the entire country into eight classes of leagues, according to population doing away with the term of major league, and making the highest rating Class A. He ing the highest rating Class A. He says that the 52 leagues in operation last year under thiseplay are torn to pieces and rearranged on the shortest constructive mileage, without the various leagues losing their respectability. The population, in some cases, is cut somewhat, while in other cases it is raised, but the mileage on all is cut at least one half, in some cases three-fourths and in in some cases three-fourths and in others as much as seven-eights. Un-der the new arrangements the presder the new arrangements the present Class D leagues would become Class F and there would be still 2 lower classifications. The Eastern association would be ranked as a Class D league with a salary limit of \$2,-500 per month and a roster of 14 players. There would be three grades of players. The first grade drawing \$240 per month, the second \$210 and the third \$180. Mr. Lawres does not state, however, how he would determine when a player is to be advanced a grade or by whom. Lawres further provides that all salaries are to be paid by a league business agent, so paid by a league business agent, so that there could be no violation of salary limits.
